

Living Faith

Written by Brooks Ritter and Bobby Gilles
Adapted from "Hymn 140" by Isaac Watts

E

Mistaken souls that dream of Heaven

C#m

And make their empty boast

F#m

Of inwards joys and sins forgiven

Am

While slaves to greed and lust

E

Vain is the will of mortal men

C#m

If faith is cold and dead

F#m

None but a living power unites

Am

To Christ the living head

E

Pray for a living faith

G#m

That leads us to trust this grace

A

Am

We cannot come to God on our own.

E

A faith that truly sees

G#m

That drives us to bended knee

A

Am

Looking for hope in the cross of Christ alone.

True faith will purify the soul

And Faith will work by love

It forces sinful thoughts to go

And lifts our minds above

This faith will conquer earth and hell

By God's celestial power

This is the grace that will prevail

In the decisive hour.

Pray for a living faith

That leads us to trust this grace

We cannot come to God on our own.

A faith that truly sees

That drives us to bended knee

Looking for hope in the cross of Christ alone.

End on Chorus chords

It takes every breath to God alone, it takes every breath to God alone
